

# KATA COMPETITION

## Criteria for the evaluation

INTERNATIONAL JUDO FEDERATION  
KATA COMMISSION  
JANUARY 2019

# GENERAL ELEMENTS

The evaluation of every technique of Kata has to consider the principle and the opportunity of execution: the evaluation (including the opening and closing ceremony) has to be comprehensive.

**The elements observed are the correct way to do the techniques, in case you notice an error, penalize according to the kind of mistakes in this document.**

## **Definition of mistakes:**

- Forgotten technique

An omitted technique will score zero and in addition the total final score of the Kata couple will be divided in half. If more than one technique are forgotten the score for that technique will also be zero but the total final score for the couple will not be divided in half again.

## **Tori doesn't do the appropriate technique following Uke's attack = Forgotten technique**

- Big mistake

When the execution of the principle is incorrect (5 points are deducted and the maximum number of crosses is 1)

- Medium Mistake

When one or more elements of the principle are not applied in the correct way (3 points are deducted and the maximum number of crosses is 1).

- Small mistake

Imperfection in the application of the technique (1 point is deducted and the maximum number of crosses is 2).

**For every technique without a big mistake, the minimum score has to be 4,5.**

**For every technique an evaluation of 0,5 can be added (+) or subtracted (-).**

In the Nage no Kata, right and left techniques will be evaluated comprehensively (only one score).

Score for fluidity, course and rhythm **are included in each technique.**

**For Kime No Kata and Kodokan Goshin Jutsu all weapons (Sword, dagger, stick and pistol) are made of wood. No metallic part are allowed. For Kime No Kata the sword needs a "Tsuba" in a plastic material.**

**Stick length for Kodokan Goshin Justu is about 3 feet or 92 cm but if commercial standard length is 100 cm it is also allowed. Diameter is about 20 to 25 mm.**

\* **In red – changes from the previous version.**

## Way of correctly placing and collecting the weapons

Dagger inside, sword outside, cutting edge upwards pointing down diagonally, right side.

Before the bow between Tori and Uke (at the beginning and at the end of the Kata), Uke lays his weapons on the mat to his right (first the sword, then the dagger), parallel to his leg with the cutting edge towards him (dagger hilt in line with the sword guard). Uke then picks

up his weapons (first the dagger, then the sword) and stands, turns around and walks about 1.8 m, sits and holds the weapons vertically in front of him, then lays the weapons on the mat, parallel to the tatami line.

At the end of the kata, Uke picks up the weapons (first the dagger, then the sword) and takes them on his right side.
